ABOUT US

Forex trading means the process of buying and selling currencies in the foreign exchange market to profit from fluctuations in exchange rates. For example, you can use currency pairs such as EUR/USD, where EUR is the base currency and USD is the quote currency.

Forex is foreign exchange, which refers to the global trading of currencies and currency derivatives. It is the largest financial market in the world, involving the buying and selling of currencies in pairs, taking advantage of changing rates.

Mission

This rule applies to the total risk exposure across all your open trades. It recommends limiting the total risk exposure of all your trades combined to no more than 5% of your trading capital. This means if you have multiple trades open simultaneously, their combined risk should not exceed 5%.

Vision

Vision To continue to be a leader, facilitate the financial well-being of people. Values NSE is committed to core values - Integrity, Customer Focused Culture, Trust, Respect and Care for the Individual, Passion for Excellence, Teamwork.

What is forex trading?

Forex trading, or foreign exchange trading, is the buying and selling of currencies on financial markets to speculate on exchange rate movements. The goal is to profit from the constant fluctuations in currency values against each other. For example, if the pound is rising against the dollar, a forex trader might buy GBP/USD
